Summary

3+ years of experience in developing responsive, scalable web applications using React.js and Next.js. Proven success in an Agile start-up environment with a focus on user experience, performance optimization, and reusable component design. Skilled in collaborating across teams, writing clean, maintainable, and efficient code, delivering features aligned with business goals

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks/Libraries: React.js, Next.js, Vue.js, Redux, Redux Toolkit, Context API, Material UI, Tailwind CSS, Bootstrap, Styled Components, Playwright.

Developer Tools: VS Code, Github, JIRA, npm, yarn, Git, Webpack, Babel, Docker, GitHub Copilot, CI/CD pipelines, React Developer Tools, Redux DevTools, Chrome DevTools, Figma

Work Experience

Coditude Pvt. Lmt.

Apr 2022 – Apr 2025

Software Engineer

Pune, Maharashtra

- Engineered high-performance, responsive user interfaces using React.js and Next.js, improving load times and mobile usability by 30% across SaaS platforms.
- Led frontend architecture and delivered role-based dashboards, real-time chat systems, and Chrome extension UIs, boosting user engagement by 20%.
- Integrated RESTful APIs and GraphQL endpoints, reducing integration-related bugs by 30% and ensuring seamless data flow between frontend and backend.

Education

Pune University

Jul. 2017 – May 2022

Bachelor of Engineering in Information Technology (CGPA: 8.15)

Ahmednagar, Maharashtra

Projects

Vidya Yoga | Next JS, Material UI

- Engineered dynamic UI components to improve engagement and accessibility, increasing session interaction by 30%
- Integrated backend systems to ensure real-time synchronization of user data.
- Enforced coding standards using ESLint, Prettier, and TypeScript, reducing code-related issues by 50%
- Integrated secure user authentication with NextAuth, resulting in a 20% reduction in login-related issues.

Caredge | Next JS, Tailwind CSS, SCSS, Playwright

- Designed role-based dashboards and car search filters, reducing user navigation time by 20%.
- Improved feature performance by identifying and refactoring legacy components.
- Led the maintenance of Playwright automation tests, increasing test coverage by 30% and accelerating QA cycles.
- Collaborated in Agile sprints via Jira, ensuring consistent alignment with client priorities and faster delivery cycles.

SalesInnovator | Vue JS, Tailwind CSS

- Implemented a real-time chat feature using Rocket.chat, enhancing user engagement and reducing response time by 20%.
- Modernized UI components for better accessibility and engagement, increasing user satisfaction scores by 20%
- Streamlined state handling using Vuex, leading to a 10% performance gain in complex UI flows.

Stacks Chrome Extension | Next JS, Tailwind CSS

- Developed a highly interactive Chrome extension dashboard, enabling power-user workflows with keyboard shortcuts.
- Optimized resource loading and resolved rendering issues, reducing latency by 30%.
- Partnered with backend teams to ensure robust API integration, minimizing data inconsistencies across features.
